**“ASSALAMUALAIKUM WA RAHMATULLAHI WA BARAKATUHU”**

All praise is due to Allah only and sending the prayer and salutation to the last Prophet Mohammad (Sallallahu Alaihi Wa Sallam).

**The Islamic World Economic Cooperation Organization (IWECO)**, a non-governmental & non-political organization of people for people to facilitate trade and improve the economy of the people global center with 7 regional offices of more than 40 national offices in the countries around the world and extend to you my most sincere and heartfelt greetings.

**The Islamic World Economic Cooperation Organization (IWECO)’s Motto “Better World for Muslims” [www.iweco.uk](http://www.iweco.uk)**

**For People to People**, Islam (IWECO) provided great impetus for the human pursuit of

knowledge. The first verse that descended on the Prophet Muhammad (PBUH) Was Iqra, meaning "read," opening the door to read, write, and ponder. Under the Quran, IWECO urges mankind to think, ponder, reflect and acquire knowledge that would bring them closer to God and his creation. The Quran uses repetition to embed certain key concepts in the consciousness of its listeners. Allah (God) and Rab (the Sustainer) are repeated 2,800 and 950 times, respectively, in the sacred text; IL (knowledge) comes third with 750 mentions.

When Allah blesses you, knowledge of financially, don't raise your standard of living, rather raise your standard of giving. (IWECO). It also proposes to address these challenges through

an alternative monetary system as **IWECO Central Bank, IWECO Cryptocurrency, IWECO Islam Card in which Islam Money** creation starts from the grassroots of the supply chain.

The prophet Muhammad commanded knowledge upon all Muslims, and urged them to seek knowledge as far they could reach, and also to seek it at all times. IWECO by following these commands and traditions, Muslim rulers insisted that every Muslim acquire learning and

they gave considerable support to the institution and learning in general. This contributed to making elementary education almost universal amongst Muslims.

**“IWECO-For People to People”** is a prayer for you from the core of my heart. May the choicest blessing of Allah fill your life with joy and prosperity?

## APLs

1. Check Balance

4. Shop Payment

2. Transfer Money

5. Shop Payment

3. Create Voucher

6. Invoice Payment

## Account Features:

1. Transfer Money (account to account)

2. Get Money (QR Code and wallet address)

3. Create Voucher from account Balance

4. Use Voucher into account

5. Use APIs with account

6. Issue Islam card and connect account to the card

7. Bill Payment

8. Islamic Donation

## **APIs**

### **1. Check Balance:**

By this API, all Applications and developers can check balance of the accounts and account turnover online

### **2. Transfer Money:**

By this API, all Applications and developers can transfer balance between 2 accounts online

### **3. Create Voucher:**

By this API, all Applications and developers can create voucher and buy it in websites online

### **4. Use Voucher:**

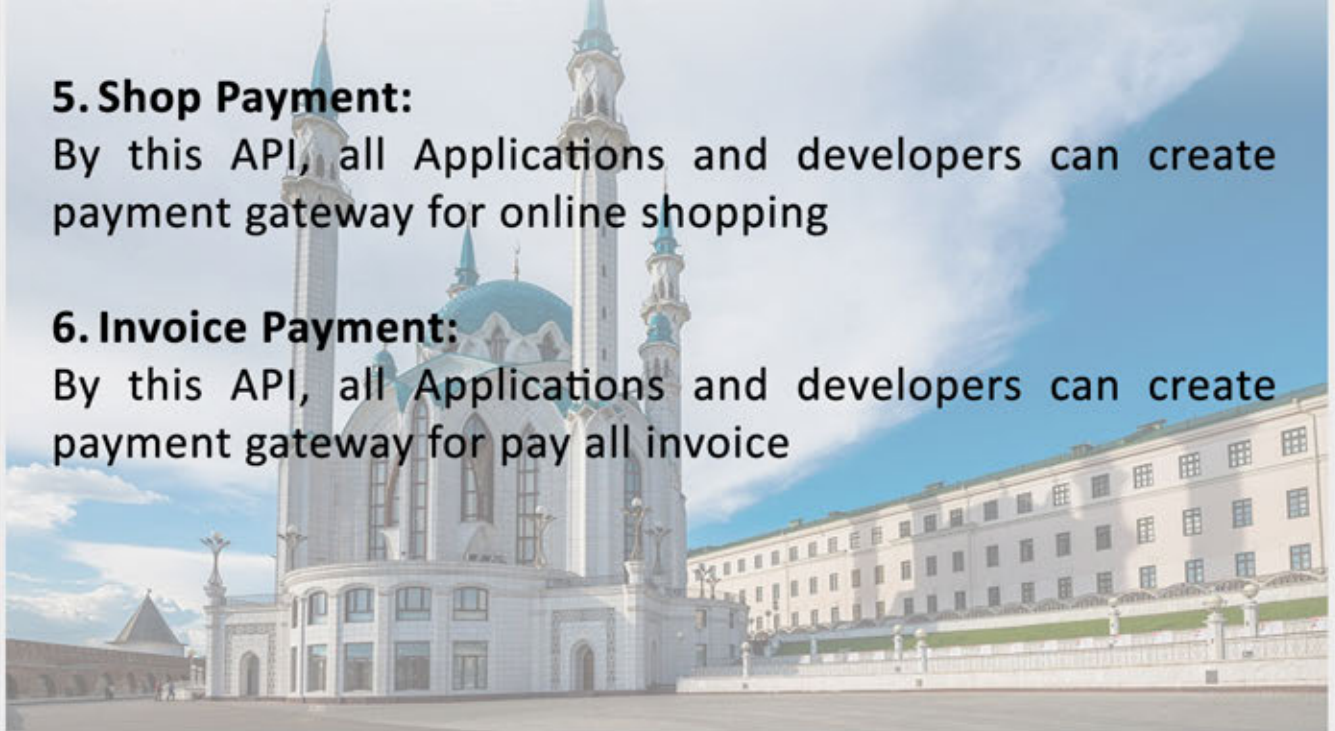

By this API, all Applications and developers can check and use vouchers in to accounts online

### **5. Shop Payment:**

By this API, all Applications and developers can create payment gateway for online shopping

### **6. Invoice Payment:**

By this API, all Applications and developers can create payment gateway for pay all invoice

## ACCOUNT FEATURES

### 1. Transfer Money:

You can transfer money to all other Islam Coin accounts

### 2. Get Money:

You can create personal QR code to get money from your friends without wallet address

### 3. Create Voucher:

You can create voucher from your account balance

### 4. Use Voucher:

You can get voucher from your friends and deposit voucher balance to your account

### 5. Use APIs:

You can use all APIs as a developer to develop websites and applications

### 6. Issue Islam Card:

You can get Islam card for the account to use card for shopping or ...

### 7. Bill Payment:

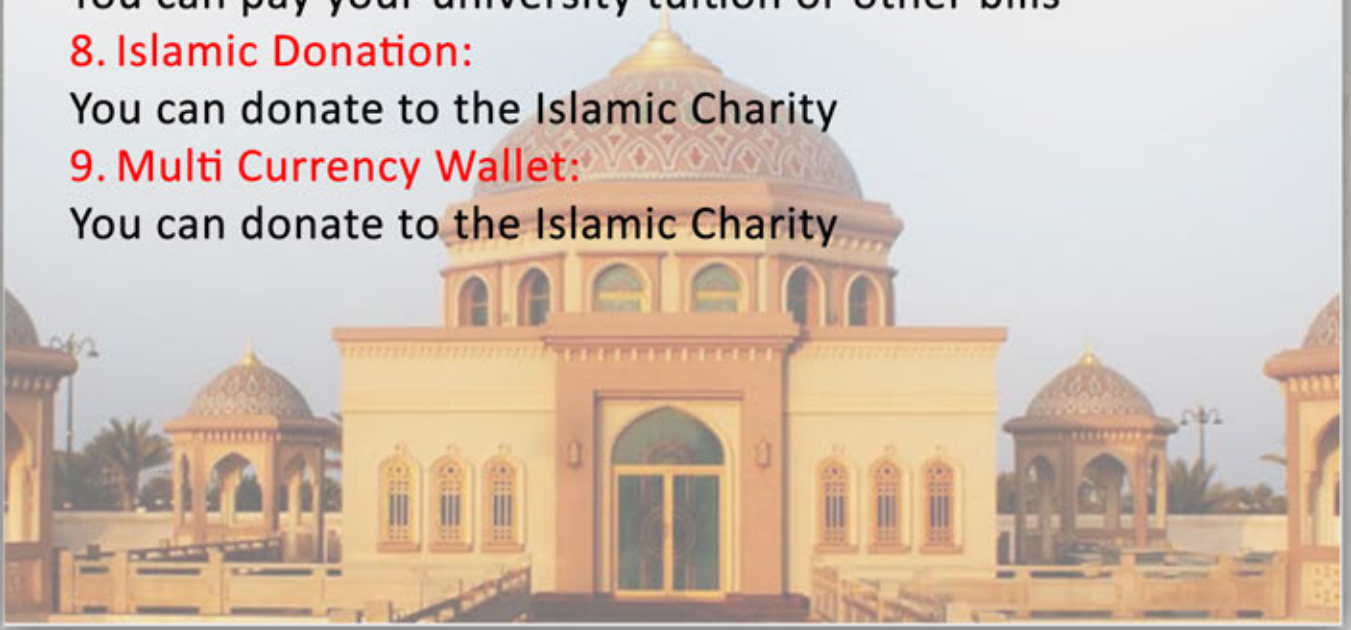

You can pay your university tuition or other bills

### 8. Islamic Donation:

You can donate to the Islamic Charity

### 9. Multi Currency Wallet:

You can donate to the Islamic Charity

## TARGETS

### Instant Account Number

Your account numbers are created immediately after registration and they can be used in transactions and money transfers.

### Money Withdrawal

You can easily control your income. Islam Coin has widespread coverage all over the world.

### List of Friends

This service is created for public use. You can add your colleagues to your contact list so as to transfer money with just one click.

### Security

Although it is easy to use Islam Coin, but there has been a special attention to the security of its accounts

### Real Support

All users of Islam Coin can use the 24-hour support of experienced professionals in the field.

### USER SIDE PROCEDURE

1. Sign Up

2. KYC or Non KYC

3. Multi Currency Wallet and all APIs and Features

4. Users can charge account and open accounts or buy Islam Coin

5. User want to do transaction in destination country (Online Shopping or IBAN to IBAN OR ...)

6. User traveled to destination country

### IWECO SIDE PROCEDURE

1. (IF KYC) Checking and Verify

2. Calculate Exchange Rate and Verify Transaction for destination banks

3. Order for Issue Islam Card in destination country

### BANKS SIDE PROCEDURE

1. Get Money in User's country

2. Destination bank: run IWECO Pay order (internal transaction)

1. Get Money in User's country

All valid countries Currencies and Islam Coin  
Islam Coin base Price: 1 GBP (Guarantee rate) (minimum rate)

"system can Exchange Islam Coin to all valid currencies with low exchange rate

"users can open all valid Currencies account

'system can do digitalized transactions online via all valid banks and internal banking systems of all valid countries with minimum costs

\*via Islam Card can do transactions in internal POS and banks ATM

"Exchange cost is minimum because the system use

internal banking systems of countries "Islam Coin demands is high because it is first coin with Guarantee rate and it can be upper than this rate

- I want to transfer 1000 Afghani in Afghanistan banks
- Or I want to travel to Iraq
- Or do online shopping from Indonesian Markets

- Afghanistan bank do it via internal banking network
- Iraq Bank Issue a internal Dinar card for user (It joint to IWECO System and Iraq internal banking network)
- Indonesian Bank make payment for online shopping via internal banking network (It joint to IWECO System and Indonesia internal banking network)

- KYC AND NON KYC DIFFERENCES**
- Exchange rate
  - Get free balance

## What is KYC?

KYC stands for Know Your Customer or Know your Clients. It's the process of proving your identity to someone or an organization.

Basically, it's to confirm that you are really you. Think about it, if a thief stole your ID card and did plastic surgery to look like you then walk in the bank to open a bank account under your name, should the bank let the thief open a bank account?

The answer is no. That's why the KYC process is important to verify your identity.

## Who needs KYC?

Most of the time, banks and financial institutions are required to perform a Know Your Customer process before they provide you with any services. Recently, other businesses such as fintech, telecom, and insurances are starting to adopt the KYC process as well.

The financial service providers, including e-payment and digital asset exchange providers, are required to perform a KYC according to anti-money laundering (AML) regulations.

This is why you need to show your ID card to open a bank account.

## Why does KYC matter?

KYC process helps to avoid corruption, bribery, or money laundering. This ensures security for you, other customers, and the platform itself. If a bank allows anyone to open an account randomly and a drug dealer can open one under your name, you might go to jail for doing nothing. If there's no KYC process in place, you would never have a peace of mind in trusting your money with the bank.

# How does It work?

KYC can happen offline, just like how you need your ID to open a bank account, or online (E-KYC). The first process of KYC usually starts with collecting data, including name, ID number, birthday, and address. The level of KYC varies according to the nature and requirements of businesses, for example:

KYC using any ID or document without seeing a real person. Video call or in-person meeting. Full background checks including source of income.

After the KYC process, a CDD or Customer Due Diligence process is followed. CDD is when a bank (or whoever is performing KYC) digs deeper into your financial transaction, checks your information with a sanction list, and compares your information with high-risk profiles such as corruption, money laundering, and Politically Exposed Persons (PEPs).

The KYC and CDD information can be analyzed by both real human beings (just like when the bank staff compares your real face with your ID), or by an automated process like any face-scanning system. From there, the bank will be able to access your risk profile.

The assessment doesn't end when you open a bank account or start using services. Organizations are always monitoring and calculating risks to make sure that there's no suspicious illegal activities going on their platform.

## KYC with digital assets

When it comes to a digital asset or digital assets trading, KYC requirements vary by each jurisdiction.

The licensed digital asset exchanges are required to perform a KYC to ensure the security of both users and the platform itself. We believe, like any other financial services, that digital asset exchanges must strictly comply with the AML regulation.

We aim to provide the most secure and trustworthy digital asset trading services for everyone.

**IWCB**

**FIRST CENTRAL BANK WITHOUT  
BORDER IN THE WORLD.**

# ISLAM COIN

**THE FIRST MUSLIMS  
CRYPTO CURRENCY...**

**FOUNDER & CEO**

**PROF. A. EHTESHAMI**

Islam coin is a digital currency; each unit of Islam Coin is equivalent to one gram of 999, twenty-four carat gold, which is deposited in one of the official or government or legal treasuries. In a way, Islam Coin is a remittance for buying and selling one gram of gold. Since the religion of Islam considers gold as the most valid aspect, so with the disappearance, melting, tearing of gold will never lose its calendar value, so it always has a strong, steady and growing support in today's world, past and future.

Type of extraction of this coin for every 1401 verses of the Holy Quran recited, users can extract one coin. It is worth mentioning that the app is extracted by artificial intelligence in such a way that the sound must be read live. Also, you can extract this coin in your daily prayers, reciting al-Fatihah or reciting the Qur'an for your dead, and officially extract it.

## How to extract Islam Coin and the difference between Islam Coins and Coins available in the market.

Unlike all coins on the market, Islam coin has a religious and spiritual dimension by various means of consuming electricity, or special cases or definitions.

You can extract a **unit of Islam Coin** by reciting 114 verses live from the Holy Quran.

You can even extract praises by reciting praises and suras in the daily prayer by connecting to the Islam coin app and the artificial intelligence system used in the design of this coin, with a live voice other than your saved coins, or by reading You can extract al-Fatiha for your dead or prayers for your dead or recitation of the Holy Quran for yourself or the dead.

Each unit of Islam Coin is equivalent to **One Gram of 999, Twenty-Four Carat Gold**, which is deposited in one of the official or government or legal treasuries. In a way, Islam Coin is a remittance for buying and selling one gram of gold. Since the religion of Islam considers gold as the most valid aspect, so with the disappearance, melting, tearing of gold will never lose its calendar value, so it always has a strong, steady and growing support in today's world, past and future.

Islam coin can be stored on the Islam Card in the QR code of the account in the account.

This coin is the only coin that includes both shopping in this world and the hereafter and helps to spread the culture of **reciting the Holy Quran**.

ECONOMIC COOPERATION ORGANIZATION**

# **IWECO ISLAM COINS**

## **CRYPTOCURRENCY FOR DIGITAL ECONOMY**

**A HUB FOR DIGITAL SERVICES IN ASEAN AND  
HUB FOR CONNECTION TO FOREIGN COUNTRIES**

**SAVAN CITY SPECIAL ECONOMIC ZONE,  
SAVANNAKHET, LAOS PDR.**

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

According to the government's digital economy policy to increase the competitiveness, ISLAM COIN and Smart Savan City are one of the projects supported by the government through the Savan City Special Economic Zone, Savannakhet, Laos PDR.

Savan City Special economic zone is set to be the first Smart City in Laos and to be a city with revised obstructing regulations and laws to increase the flexibility of business and investments from foreigners.

# **ISLAM COINS**

## **CRYPTO CURRENCY FOR DIGITAL ECONOMY**

### **THE IMPLEMENTATION**

#### **ISLAM COINS**

The implementation can be divided into 4 parts.

#### **1. ISLAM COINS**

Certified Digital Workers/Investors project to support and give benefits to digital workers and investors.

#### **2. ISLAM COINS**

Innovation center establishment to support super cluster digital.

#### **3. ISLAM COINS**

Research and development of ecosystem and incentive study and roadshow to gather measures to support and develop Smart Savan City and other projects development.

#### **4. ISLAM COINS**

Smart Digital Currency development program.

#### **5. ISLAM COINS**

The Block Chain and Crypto Currency, emerging as parallel alternative systems, will gain more recognition and eventually replace the deteriorating old financial system.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### OBJECTIVES

- 1.To create ecosystem and environment that supports the development of digital innovations.
  - 2.To promote financial development and digital innovations.
  - 3.To be a hub for digital services in ASEAN and hub for connection to foreign countries.
  - 4.To attract digital workers and investors, and software companies from around the world to work and invest in Savannakhet Lao PDR.
  - 5.To create learning opportunities and share knowledge from experts.
  - 6.To foster startups and drive digital economy effectively
- 

# **ISLAM COINS CORRECTION**

## **CRYPTO CURRENCY FOR DIGITAL ECONOMY**

### **GOALS**

One of the ISLAM COINS' Goals is to develop Smart Cities in all of the world as Smart Cities, such as Savan Smart City Laos in terms of Smart Economy and Smart Living Community and to be the hub for digital industry in the region that will attract investors and tourists.

### **BLOCKCHAIN / CRYPTO CURRENCY**

ISLAM COINS does not really change the existing system. Rather, it establishes a new system parallel with the existing one as an alternative for consumers, business people and the public but the main important different is, Each unit of Islam coin is equivalent to **One Gram of 999, Twenty-Four Carat Gold**, which is deposited in one of the official or government or legal treasuries. Islam coins support by the gold "not paper".

### **THE DIGITAL ERA**

In the digital era, it is expected that new financial systems, such as Block Chain and Crypto Currency, emerging as parallel alternative systems, will gain more recognition and eventually replace the deteriorating old financial system. Together with this phenomenon, the players of the old system will become a left-over component as they cannot adjust to the new system.

# **ISLAM COINS**

## **CRYPTO CURRENCY FOR DIGITAL ECONOMY**

### **BLOCKCHAIN UNDER CRYPTO CURRENCY**

The first example is Crypto Currency under Block Chain. It is establishing a new financial and banking context. In the emerging context, trust in the monetary system with the state as the center (Centralization) is diverted to the monetary system without the state as the center (decentralization). Originally, the monetary system was supervised by government agencies, while the new monetary system is controlled by mathematic algorithms which are processed by computers of ordinary people around the world. But their network lays the base of the new monetary system which does not rely on governmental mechanisms any longer.

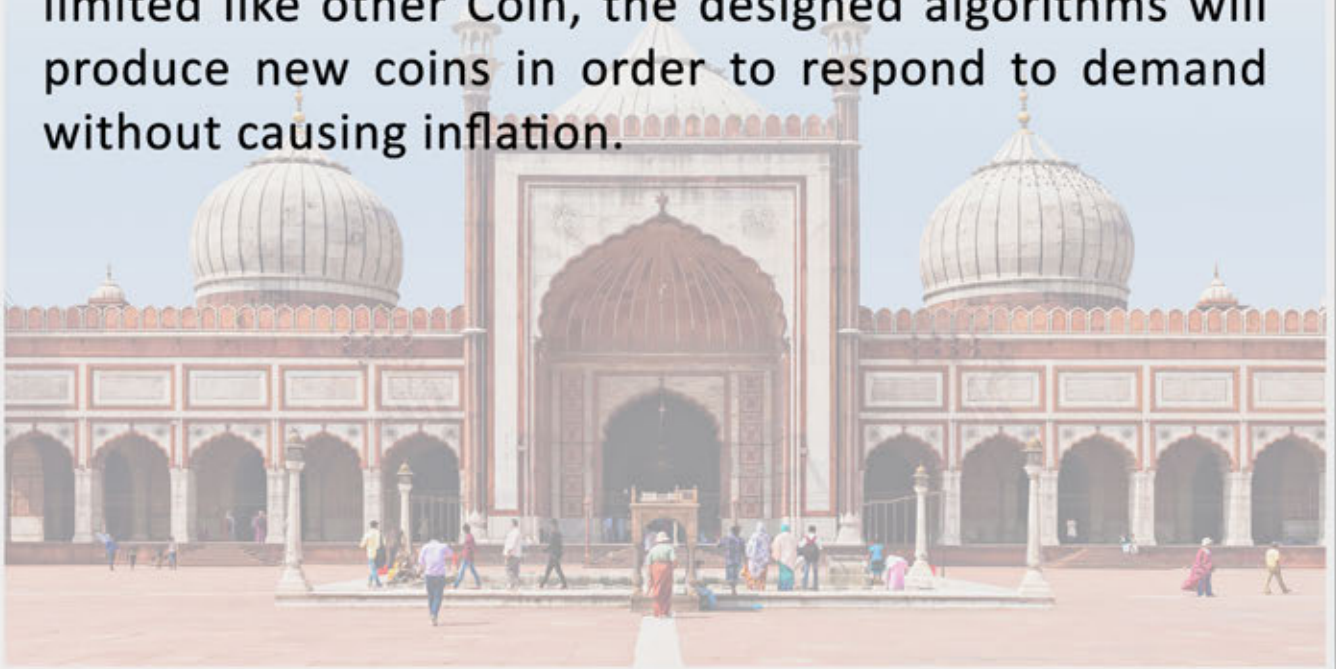

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### OLD MONETARY SYSTEM

The old monetary system is controlled by the government of each country, supply and demand, and inflation. As a result, foreign currencies rates fluctuate and depreciate according to inflation rates.

However, Crypto Currency is produced in relation to the increasing role of Coin Miner in response to the growing demand for an exchange medium. In the case of Ethereum Coin, although its highest ceiling is not limited like other Coin, the designed algorithms will produce new coins in order to respond to demand without causing inflation.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### RAISING CAPITAL WITHOUT THE ROLE OF THE STOCK EXCHANGE MARKET

However, Cryptocurrency, as a civil currency, is just an example of a challenge to the monetary system under the supervision of the government. Eventually, Cryptocurrency will not just be a monetary alternative; it will also be an alternative for raising capital, aside from the capital from the Stock Exchange Market under the control of the Securities and Exchange Commission. It is called Initial Coin Offering (ICO) – raising capital without the role of the Stock Exchange Market.

New companies now raise capital through the produced Coin. This is the second miracle of Coin. Initially, it served to replace existing currencies. Now, it replaces stocks in terms of raising capital. ICO has become more popular and could be a digital disruptor for the stock market

# **ISLAM COINS**

## **CRYPTO CURRENCY FOR DIGITAL ECONOMY**

### **INITIAL COIN OFFERING (ICO)**

1. ISLAM COINS ICO requires less operation costs than IPO costs and costs for entering into the stock market. ICO does not require the costs for exchanging stocks in the market, preparation of the prospectus, or employment of Due Diligence.

2. ISLAM COINS ICO can raise capital faster than IPO.

3. ISLAM COINS ICO can raise capital from around the world at once without limitations such as the control of the Stock Exchange Market of any country.

4. ISLAM COINS ICO is not controlled by any agency. ICO can raise capital without the role of the Stock Exchange Market. Hence, if the investment laws of any country are an obstacle rather than support, the company can register itself in any country and launch ICO in that country.

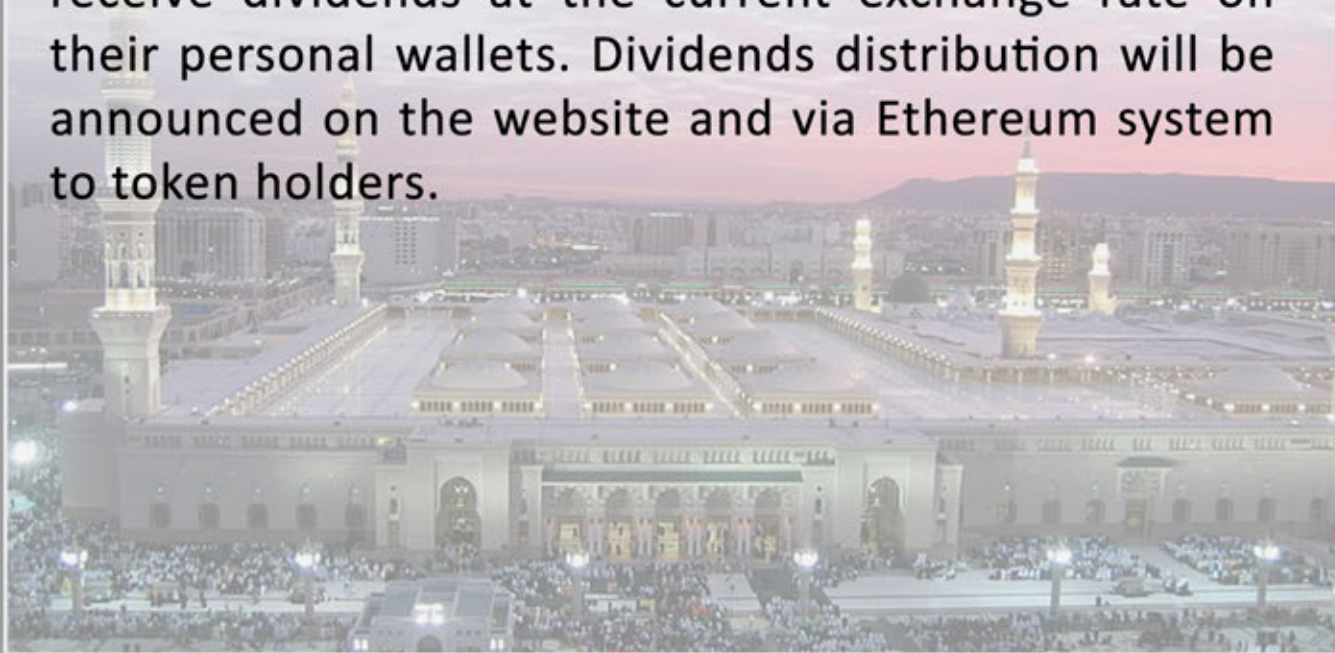

# **ISLAM COINS CORRECTION**

## **CRYPTO CURRENCY FOR DIGITAL ECONOMY**

### **DIVIDENDS DISTRIBUTION**

Dividends distribution is a standard problem for any company using ICO. IT specialists in Islam Coins developed a dividends distribution system on the basis of Ethereum that gives an opportunity for everyone to make a sufficient profit.

During each period of dividend payment the register of token holders is checked. This can be done with a snapshot of the BlockChain. Token holders will receive dividends at the current exchange rate on their personal wallets. Dividends distribution will be announced on the website and via Ethereum system to token holders.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### ETHEREUM

Ethereum the Initial Coin Offering - ICO  
Crowdfunding Machine

One of the easiest applications of  
Ethereum's smart contract system is to create a  
simple token which can be transacted on the  
Ethereum Block Chain instead of Ether

This kind of contract was standardized with  
ERC#20.

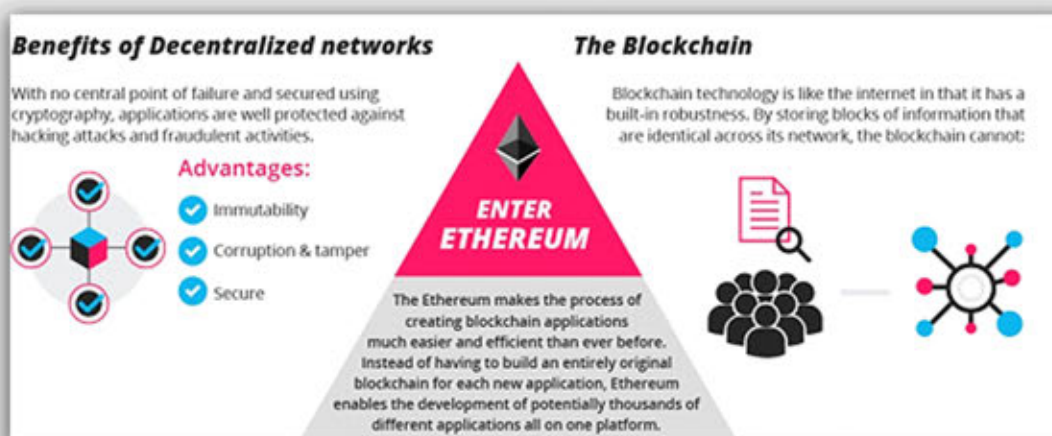

It made Ethereum host of such a wide scope of  
ICO that you can safely say that Ethereum found  
its Killer App as a distributed platform for  
crowdfunding and fundraising.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### WHY ETHEREUM ?

Most of the services we use today have something in common: they are centralized. For example, when you deposit money at your bank, you trust them to be honest, be secure and be independently audited. The same is true when you post pictures on Facebook, or an important document on Dropbox. History has proven time and time again that this model is flawed, but necessary, as 'trustless' operations have been so far both unprofitable and too complex to implement.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### TRUST

Applications built on Ethereum do not require their users to trust the developers with their personal information or funds. Ethereum not only addresses the issues described above, it also opens the door to whole new kinds of applications that have never been seen before

Ethereum is a platform and a programming language that makes it possible for any developer to build and publish next-generation distributed applications.

Ether, Ethereum's crypto fuel, powers the applications on the decentralized network.

Ethereum can be used to codify, decentralize, secure and trade just about anything: voting, domain names, financial exchanges, crowdfunding, company governance, contracts and agreements of most kind, intellectual property, and even smart property thanks to hardware integration.

Ethereum borrows the concept of decentralized consensus that makes bitcoin so resilient, yet makes it trivial to build on its foundation. To find out more about how Ethereum works, consult the white and yellow papers.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### ADHERENCE TO ERC-20 STANDARD

In order for your smart contracts to comply with an ERC20 standard, you'll have to make sure that they include the following list of methods, events, and lines

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### FUNCTION

Function total Supply (), which returns a total number of generated tokens;

Function balance OF (address \_owner), which returns a number of tokens bought by an address;

Function transfer (address \_to, uint256 \_value), which transfers a set number of tokens to an address \_to;

Function transfer from (address \_from, address \_to, uint256 \_value), which allows for debiting of funds that don't exceed the value:

Function allowance (address \_owner, address \_spender), which indicates a maximum allowable amount of funds for debiting from the user account;

Event Transfer (address indexed \_from, address indexed \_to, uint256 \_value), which must be involved in each transaction;

Event Approval (address indexed \_owner, address indexed \_spender, uint256 \_value), which appears on confirmation of allowance for debiting tokens;

String public constant name, which stores token's name;

String public constant symbol, which stores a symbol that would define your token;

Uint8 public constant decimals, which represents a number of symbols following the decimal point (usually, it equals 18).

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### APPLICATIONS

Applications built on Ethereum do not require their users to trust the developers with their personal information or funds.

Ethereum not only addresses the issues described above, it also opens the door to whole new kinds of applications that have never been seen before

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

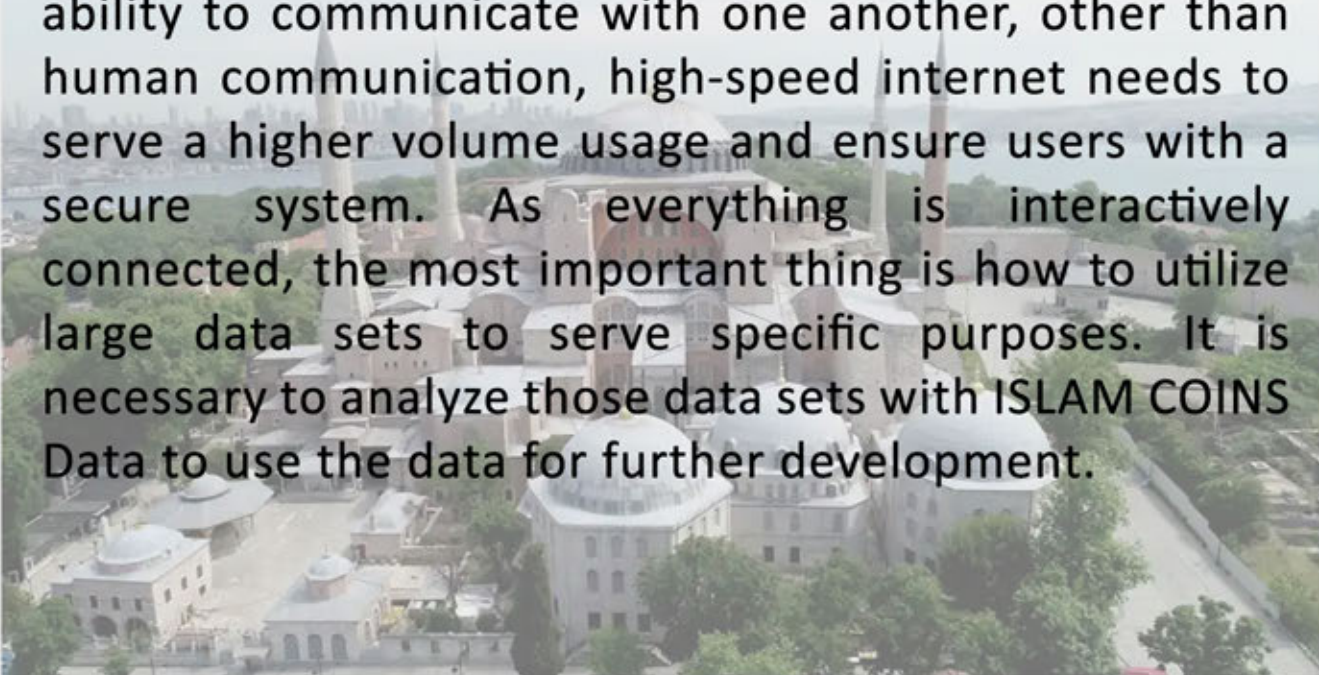

### TECHNOLOGY

Technology is a key to ISLAM COINS.

Technology that collects a large set of data in one location and integrates another technology to analyze, screen and extract the specific value of data out of the oversized or over-limited set of data in a conventional data management system.

ISLAM COINS is a key to development, namely high-volume, high-velocity and high-variety

When electronic devices become smarter and have the ability to communicate with one another, other than human communication, high-speed internet needs to serve a higher volume usage and ensure users with a secure system. As everything is interactively connected, the most important thing is how to utilize large data sets to serve specific purposes. It is necessary to analyze those data sets with ISLAM COINS Data to use the data for further development.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### IN-DEPTH DATA

In actuality, ISLAM COINS starts managing ISLAM COINS data volume, especially business sectors that have a large customer base. An in-depth data analysis needs to crystalize raw data to obtain useful data. In addition to ISLAM COINS data volume, now in the digital era, there are various types and sources of data other than certain types of sources in each organization's internal system.

Now sources of data are available everywhere including social media and open blogs and they become more important when new data is updated every split second.

As a result, new technologies are required to serve big volume and various types and sources of data and quickly perform data processing to promptly serve demand of both public and private sectors and ensure better quality of life.

# ISLAM COINS

## CRYPTO CURRENCY FOR DIGITAL ECONOMY

### DATA PROCESSING A KEY TO ISLAM COINS

Nowadays, the word ISLAM COINS usually refers to a system that is operated by data of the city's residents, which is obtained from sensors or data storage devices installed around the city. Every time when we are on roads carrying our smartphone, we will create new data without using it.

The infrastructure of ISLAM COINS will perform data processing, such as our starting point and destination, speed, going by bus or train and information about traffic jams, to enable the city to manage its infrastructure and systems more effectively.

However, ISLAM COINS is equipped with CCTV system, facial analysis system and vehicle registration reading system. These systems always create new data even though users are not carrying any electronic devices. By just travelling on roads, users generate new data into these systems.

# ISLAM MONEY

## THE FIRST UNIFIED MUSLIMS CURRENCY

## ISLAM MONEY

Money or physical banknotes are traditionally used for people who are not familiar with the digital system and electronic and computer portals on the market today.

It is a kind of remittance of Islam coin payment and can be used and exploited in all business owners and stores of the contract of Islam coin or Islam Card, which will be supported by the Central Bank of one of the official countries.

# ISLAM CARD

## ISLAM CARD

Islam is a financial, monetary and banking network card; it works like the cards available in the market such as Visa, Master, etc.

And in all stores and business owners who are parties to the contract with Islam Company, this card can be used through them.

Received the currency of each country or made a purchase in the same country. It also acts as a digital exchange to convert Islam money and Islam coin.

## ISLAMIC WORLD ECONOMIC COOPERATION ORGANIZATION LTD

Company number 12112787

### Islamic World Economic Cooperation Organization (IWECO – THAILAND AND LAO PDR.)

---

#### IN THE NAME OF GOD

It is our pleasure to present IWECO's Vision for the future. It is an ambitious yet achievable blueprint, which expresses our long-term goals and expectations and reflects our organization's strengths and capabilities. All success stories start with a vision, and successful visions are based on strong pillar.

The first pillar of our vision is our status as the heart of IWECO Islamic worlds

The second pillar of IWECO vision is the determination to become a global investment powerhouse

The third pillar is transforming IWECO unique strategic location into a global hub connecting

IWECO [www.iweco.uk](http://www.iweco.uk) is exploring Islamic monetary system by Islam Card, Islam Cryptocurrency and IWECO Central Bank that are the Islamic way of money creation from supply chain to international trade. The alternative Islamic monetary system in which money is created from supply chain grassroots based on work effort and is accessible from people to people as long as they offer goods and services demanded by others.

We will begin immediately delivering the overarching plans and programs IWECO have set out. Together, with the help of Allah, we can strengthen the IWECO's position as a great nation in which we should all feel an immense pride.

## **J/V AGREEMENT**

**WITH REGARDS TO:**

ECONOMIC ACTIVITY to develop cooperation and exchange in all economic fields and common interests are considered

**Between**

**ISLAMIC WORLD ECONOMIC COOPERATION ORGANIZATION  
(IWECO)**

**AND**

**SAVAN CITY COMPANY LTD.**

IN THE NAME OF GOD  
JOINT VENTURE AGREEMENT

DATE: MONDAY 28, SEPTEMBER, 2020  
REGISTRATION NUMBER: J-20202809/3  
REGISTERED IN THE OFFICE OF THE ISLAMIC WORLD ECONOMIC COOPERATION ORGANIZATION LTD (IWECO)

First and foremost, I would like to announce that, this agreement is concluded between its parties to promote unity and economic development and high human values based on the goals of Muhammad, the Messenger of God, and the Holy Qur'an to help the greater welfare and comfort of Muslims around the world.

**KNOW ALL MEN BY THESE PRESENTS:**

This joint venture agreement (hereinafter referred to as the "JV/AGREEMENT" executed this 28 day of September, 2020, by and among between:

**First party:** Islamic World Economic Cooperation Organization LTD (IWECO) with registration number 12112787 in London and Wales and e-mail address [uk@iweco.uk](mailto:uk@iweco.uk) and [iweco.uk](http://iweco.uk) website that Prof. Ali ~~Chanchai~~, the official and legal signature of the first party, will sign this contract on behalf of this organization, which henceforth will be called the first party in this contract.

**Second party:** SAVAN CITY COMPANY LIMITED Registration number: 005/PM/SEZA Email address [sawangarden@yahoo.com](mailto:sawangarden@yahoo.com) and website: [www.savanchykos.com](http://www.savanchykos.com) That Mr. ~~Chanchai~~ ~~Jaturaphagorn~~, the official and legal signature of the second party on behalf of this organization signs this contract and henceforth is called the second party.

It is agreed that the first and second parties try to develop cooperation and exchange in all economic fields and common interests are considered. The two institutions wish to increase their friendship and economic cooperation in this regard. Therefore, they have considered the following for cooperation:

- 1- The first party recognizes the second party and vice versa and are allowed to use each other's logo in all fields.
- 2- Islam coin digital currency password as well as Islam Card payment and receiving services, which are among the services of the first party to the contract, the second party recognizes them and offers the use of these services to its members. And will also support this issue.
3. Since the signing of this contract, the second party has considered the islam coin password as the official currency for providing its center services and all its fees and wages received by this currency password (Islam coin) as well as Islam Card services as an optional offer that your customers will receive.
4. The first and second parties agreed that if there is a need for separate contracts in separate minor and general matters, a contract shall be drawn up between them on a case-by-case basis based on the agreements contained in the contract and signed by each party and that contract shall enter into force. The title is attached and will be an integral part of this agreement. This can be considered publicly or privately confidential, which of course will depend on the agreement of the parties.

This contract can be presented in two single copies and publicly in the official English language in the full validity and health of the owners of official and legal signatures of the two parties to the contract on and valid indefinitely.

CHAIRMAN & CEO

**DR. MOLLA HOSSEIN**  
DEPUTY CHAIRMAN & MD

**Savan City Company Limited** is a developer company established to contribute to the acceleration of the process of economic and social development of Lao PDR in its regional development, individually and collectively.

**Savan City Company Limited** is a Joint - Venture between the Lao PDR Government which hold 30% shares and the Developer, Mr. Chanchai JATURAPHAGO RN a Thai Investor who hold 70% shares in Savan City Company Limited.

The Company is found under the Decrees of the Prime Minister No.148/PM, dated 29 September 2003. The Company has been granted the Investment License No. 005/PM/SEZA on 21st February 2008 from the Lao PDR government to develop and operate an economic free trade zone project for the purposes of establishing trade, tourism and investment services in Savan SENO Special Economic Zone Site A and D, Savannakhet Province, Lao PDR.

The Company is additionally shortlisted by the Lao PDR Government to undertake the concessions of major investment projects which include the infrastructure and establishment of identified projects namely an airport, power plants, the establishments of a railway link and telecommunication projects, to name a few.

**Its main Objective is to facilitate economic, social and urban development within Savan SENO Special Economic Zone Site A and D** including many Projects in the Pipeline. Each Site has their own Plans and Strategic to Develop as follows:

**SITE A** located at left side hand of Thai - Lao Second Friendship Bridge where linked Mukdahan Province, Thailand to Savannakhet Province, Lao PDR. With the Land Area of 270 Hectares. This Site is planned to Develop as the Trading, Entertainment and Financial Center that serves as the Key Gateway and Hub of ASEAN Countries.

**SITE D** are adjacent to the East- West Economic Corridor far from Site A about 2 KM. with the Land Area of 118.7 Hectares and aiming to Develop as the Residential Zone which consist of Modern House, Commercial House and Education Center.

Project List in Each Site and Project Cost

# **EXECUTIVE SUMMARY**

**New Savannakhet International Airport (NSIA)**

## **Introduction 1**

**Chanchai Jaturaphagorn**  
**Founder-investor**

The purpose of this business plan for the New Savannakhet International Airport is to develop decision-level information that the Savan SENO Special Economic Zone in Savannakhet Province Lao PDR. can use to chart the future course of the International Airport. To accomplish this, an examination of the financial production of the Airport was made and reported in pro formas. In addition, the plan studied operational and managerial issues to determine if there were better or more efficient methods that could be used. The plan is founded upon an understanding of current activities at the Airport and sets forth options to address several key areas: marketing for aviation users and non-aeronautical business, potential areas of development on Airport property, the possible need for new hangar space, the desire to increase corporate use of the facility, and capitalizing on several growth opportunities in the greater Mekong Sub Region. The recommended plan of action from this report rests on four primary strategic initiatives:

## New Savannakhet International Airport (NSIA)

# AIRPORT MISSION

The Mission Statement captures the intent of the **New Savannakhet International Airport (NSIA)** to grow into the future as a safe, secure, and responsible facility that serves as an economic engine to achieve those desired economic opportunities sought after by the community and region. To fulfill the intent of its Mission Statement, the **New Savannakhet International Airport (NSIA)** must build on its current foundation and improve its capabilities into the future to accommodate those goals for operational effectiveness and economic opportunities set forth by the Airport and community. **The New Savannakhet International Airport (NSIA)** adopted the following mission statement that characterizes its position and future goals.

The Mission Statement provides a general description of what the **New Savannakhet International Airport (NSIA)** will become in future years. Maintaining the community core values, establishing an appropriate vision for the future, and developing practical and obtainable objectives provides a road map for accomplishing that mission. The Airport's operators already supply a full range of FBO services including amenities most often utilized by business and corporate operators, and further supporting the Airport's mission.

*Investment Plan Mukdahan Smart Airport  
Thai-Laos Friendship International Airport (TLF), Mukdahan Province Thailand*

## **Investment Plan**

**MUKDAHAN Smart Airport**

**Thai-Laos Friendship International Airport (TLF)**

**MUKDAHAN Province Thailand**

**The International Airport Development and Investment**

**1. Airport Facilities & Infrastructure**

**2. MAINTENANCE Repair & Overhaul (MRO) and a pilot training flight simulator**

**3. Airport City**

## Airport facilities and Infrastructure

14. Air pollution, Noise pollution and Other environmental impacts
15. Environmental effects of aviation.
16. Customs and border control
17. Coding systems

*Investment Plan Mukdahan Smart Airport  
Thai-Laos Friendship International Airport (TLF), Mukdahan Province Thailand*

## **Message from Chairman**

The airport city model considers the idea that an airport can do more than perform its traditional aeronautical services. With airports typically surrounded by hundreds or even thousands of hectares or Rai of undeveloped land that acts as an environmental buffer for nearby residents, the land holdings can present a real estate opportunity. Office blocks, hotels, convention centres, medical facilities, free trade zones and even entertainment and theme parks can be built to generate new sources of revenue for the airport operator and make the airport a business or tourism destination in its own right.

The Investment is in various framework such as Public Private Partnership (PPP), Private Fund etc. will invest in Airport Facilities & Infrastructure, Maintenance Repair & Overhaul (MRO) together with the construction of a pilot training flight simulator and the third Phase of Airport City.

Mukdahan airport will become handy for those travelling to central and southern parts of Laos as though Savannakhet does have its own airport now, it is served exclusively by Lao Airlines with airfare far superior to what regional and Thai low cost airlines offer for similar flights within Thailand.

*Chanchai Jaturaphagorn  
Chairman of the Board*
